PROJECTS & EXPERIENCE

SahulatHub — Service Marketplace Platform
2026

Team Member · User Experience Focus

- Assisted in designing a user-friendly platform connecting customers with service providers, focusing on ease of use for non-technical users.
- Actively identified and resolved usability and workflow issues to improve overall user experience across testing cycles.
- Communicated technical concepts and system workflows clearly during presentations and team discussions.
- Focused on real-world problem solving, simulating how end users interact with the system and addressing potential confusion points.

Little Lemon — Restaurant Web App
Nov 2025

Frontend Developer

- Identified and fixed cross-device UI inconsistencies through systematic testing, improving usability and resolving layout issues before final release.
- Prepared a structured debugging reference from the troubleshooting process, making it easier to resolve similar issues in future iterations.
- Tested the app across multiple browsers and screen sizes to ensure a consistent and reliable experience for end users.
